What does a class entail?

Remediation assisted learning takes place if there is a concept that your child does not understand. However, you must keep in mind that the time for capture is very short and it is only a homework class and not pure remediation.

If your child shows severe failure in a certain area, I will inform you for extra holiday remediation, if you wish.

In the case of outstanding fees, the owner has the right to refuse your child until full outstanding fees have been paid.
